# CASE STUDY: INSURE THE BOX

## GUIDEWIRE PAS IMPLEMENTATION AND DATA MIGRATION

The black box insurance specialist

### ABOUT INSURE THE BOX

The UK's most experienced black box car insurance provider.

- Their mission is to make the roads safer, for both their customers and other road users.
- To do this, Insure The Box fit a black box to your car which collects data such as speed, the time of day or night you drive, your motorway miles and driving style.

### How does it work?

#### Select your mileage

Choose an initial mileage of 6,000, 8,000 or 10,000 miles. You can buy additional Top Up Miles that can be rolled over to the following year at renewal.

#### We fit a black box to your car

This pocket-size box will make your car one of the smartest on the road. Our installers will arrange to come to you and set it up at no extra cost.

#### Track your driving

We're committed to helping you become a better driver. You can track your driving in Your Portal and earn monthly Bonus Miles by driving safely.

## GUIDEWIRE PAS IMPLEMENTATION AND DATA MIGRATION

### THE CHALLENGE

- The cost of implementing the Guidewire system was escalating using a systems integrator.
- Struggling to get business analysts and configurators.
- The client didn't have the skills in data migration.

### THE SOLUTION

- Signed a master's services agreement to provide project management, business analysis and configuration resource.
- Scoped and provided fixed price proposal for data migration.

### KEY BENEFITS

- Reduced costs for a resource with correct skills.
- The removed risk from overrunning on data migration costs by providing a fixed price.
- Experts in data migration were used to deliver the project.
- Access to up-to-date, accurate and real-time information
- Completed data migration from legacy database to new data system: Guidewire
- Improve client policy and claims experiences
- Data storage is now in one central repository
